The foregoing report of the financial affairs of the Town of Deerfield is respectfully submitted to the citizens.

LESTER E. MAYNARD,  
CARL M. FOGG,  
WALTER B. SCOTT,

*Selectmen of Deerfield.*

Deerfield, N. H., February 6, 1934.

We have examined the foregoing accounts of the selectmen and find them correct and well vouched.

HAROLD E. HARTFORD,  
HENRY P. HAYNES,

*Auditors.*

## THE PHILBRICK FUND

---

The Philbrick Fund is now the only fund handled by the Selectmen. There have been some changes in the various items and a statement of the several amounts and the income from them is as follows:

In Town Treasury, \$1,701.25, yielding  $3\frac{1}{2}\%$ .

In Amoskeag Savings Bank, \$1,200, yielding  $3\frac{1}{2}\%$ .

This amount (\$1,200) was derived from the sale of Manhattan Beach Railroad Stock.

During the year 1928 the Liberty Bond matured and this amount, \$150, is included in the amount \$1,701.25.

One-fourth of the income of this fund is payable to the School District for No. 1 School, and the remainder, after paying for the care of the Philbrick Cemetery, is payable to the Trustees of the Philbrick-James Library.

Deerfield, N. H., February 6, 1934.

This is to certify that we have examined the foregoing account of the Philbrick Fund and found it correct.

## PAWTUCKAWAY CAMP, NO. 52

### 123d COMPANY, C. C. C.

---

The work done by this Company started June 12 on the town land where the camp is located. Bushes were cut and burned and stumps removed.

Approximately 2,000 acres of land was covered by the Blister Rust Crews.

The No. 1 road leading from the state highway to the State Reservation was improved, a part of which has been gravelled. A new road has been built on Maloon hill on land that was given to the town by Mr. James Wentworth, which will be a great help to every one.

Some work has been done on Veasey Park at Pleasant Pond and this job will be finished as soon as possible this coming summer.

Several water holes will be put in this Spring in different parts of the town which will be a great help in case of fire.

There is a gasoline fire pump and about 1500 feet of hose kept at the camp to be used on forest fires. Fortunately we didn't have to use it last season.

It is anticipated that this camp will be maintained for another year after April first and I hope our relations with the townspeople will continue to be as pleasant as they have been in the past.

FLOYD L. CRAM,  
*Superintendent.*

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

*To the School Board of Deerfield:*

My fifth annual report deals briefly with enrollment and per pupil cost in elementary schools, reduction in district's liability for high school and academy tuition, physical welfare activities, and recent reorganization.

The total enrollment in the Deerfield schools has been slightly below that of the previous year. However, the average membership of eighty-one pupils remained the same. The elementary cost per pupil of \$80.70 was slightly less than that of the previous year, and nearly eight dollars less than the cost three years ago.

This year thirty pupils have been enrolled in high schools and academies. Here again economy has been effected by a per pupil reduction of \$11.53 in the district's liability for tuition. The legal liability is determined by the average cost of instruction during the previous year in the public high schools of the state. This sum fell from \$89.79 to \$78.26 per pupil. The number of your secondary school pupils now on honor rolls in scholastic and competitive activities reflects credit upon the homes and schools of Deerfield.

Foremost among the aids to physical welfare are the services of your School Nurse, whose activities have received most valuable support from state and federal relief agencies. I regret that her co-operation in allocating state and federal assistance does not appear in the report of the School Nurse.

No single feature of state and federal relief has a greater bearing on the health of growing children than the daily milk ration. Through the initiative of our Governor federal funds were procured and free milk service was inaugurated

in March, 1933, and is being extended through the present school year. New Hampshire's public and parochial schools are using daily over 15,000 bottles of milk. Such federal activity is no more a form of charity than is the free allotment of paper and pencils in our schools. Both are distributed in accordance with the child's physical or educational needs.

The reorganization of the Center and Parade schools, recommended in my report of last year, is being given a thorough trial. These are now rated by the state as graded schools having four primary grades at the Parade and the grammar grades at the Center. Without increasing the cost of transportation this provides instruction by consecutive instead of alternate grades, longer periods of supervised study, and school management and playground activities adapted to the respective grades.

The playground activities at the Parade School were this year filmed by the State Department of Education and displayed at the rural institutes in a moving picture showing outstanding activities of similar schools throughout the state.

In conclusion, it is to be noted that, while reductions in expenditures have been made, your staff of teachers has been retained and the efficiency of your schools increased. It has been a pleasure to work with you in the achievement of these ends.

Respectfully submitted,

GEORGE H. HARMON,  
*Superintendent*
